**DESCRIPTION**

The compact XB 500 T Cable roller (telescopic extension) is a universal cable drum reel and unwinder for all types of cables and pipes (core cables, cable rings, cable drums, empty pipes, ropes and cable drums). It enables trouble-free and efficient work without tangled cables. The XB 500 T Cable roller (telescopic extension) can hold up to 800 kg and fits almost every type of drum. Especially suitable for damaged cable drums.

The height-adjustable lid can be adjusted up to a filling height of 390 mm, making it perfectly designed to secure loose cables, cable rings or pipes in the XB 500 T. This prevents uncontrolled cable unwinding. The 6 fold-out support extensions can be extended up to Ø 800 mm using the telescopic extensions. The RUNPOSTICKS (2 x 410 mm, Ø 7.5 mm) stored in the lid can be screwed onto the thread of the stainless-steel center mandrel and thereby prevent smaller or lighter drums from slipping down. 12 rubberized feet ensure a non-slip and secure stand. Ideal for protecting surfaces for already finished floor coverings.
