DESCRIPTION

GF3 - Cable pulling tool incl. digital meter counter, glass fibre rod Ø 3 mm with kink protection ending joint and patented guiding head with twist adjustment. Stowed in a shock-proof plastic box. The GF3 plastic box can be opened with only a single screw for service work. The glide-back protection prevents the fibreglass rod from accidentally slipping back into the box. Furthermore, the box has an ergonomic carrying handle and an anti-slip coating. The scope of delivery includes an 16-piece accessory set. The newly developed kink protection technology makes it possible to overcome bending radii of up to R = 38 mm. Total breaking load of 130 kg refers to the glass fibre rod incl. kink protection joints. The cable pulling loop (Ø 14 mm outside) with built-in twist adjustment and protective cap included can be used for one or more cables up to a cable diameter of Ø 12 mm. Any plugs are protected by tensile load on the cable.

Optimal field of application: for pipe dimension 10 mm - 50 mm.

Application film: You can watch a short, very informative application film by scanning the QR code or at www.runpotec.com.

Scope of supply: 1 x GF3 incl. metre counter in plastic box, kink protection ending joint on both sides (start / end), contents of the accessory box: 1 x guiding head with twist adjustment, 1 x kink protection ending joint RTG Ø 6 mm, 1 x pull-in aid, 1 x special adhesive 3 g, 1 x cable pull loop (Ø 14 mm outside), 6 x adhesive sleeves Ø 3 mm, 3 x pull eyes Ø 7 mm, 1 x starting bulb Ø 11 mm, 1 x connecting sleeve, 2 x mounting-wrench, 1 x button battery CR2032
