

## TECHNICAL INFORMATION

# FLOOD SOLAR PRO II

## 15W 3CCT BLACK

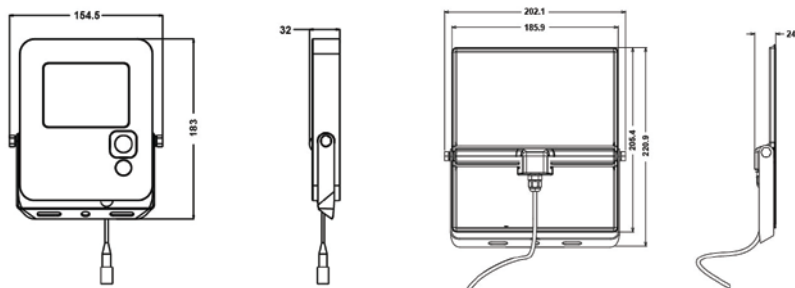

\*Includes Remote Control

### ILAR-03002

| REFERENCE                     |                       | DIMENSION & WEIGHT      |                  | PHOTOMETRICAL DATA  |                        |
|-------------------------------|-----------------------|-------------------------|------------------|---------------------|------------------------|
| Reference                     | ILAR-03002            | Lamp Size               | 183x154.5x32mm   | Total Luminous Flux | 1900lm                 |
| Led Type                      | SMD2835               | Solar Panel Size        | 220.9x202.1x24mm | Luminous Efficacy   | 126Lm/W                |
| Body Material                 | ABS+PC                |                         |                  | Beam Angle          | 100°                   |
| Body Colour                   | Black RAL 9005        |                         |                  | Colour Temperature  | 3CCT 3000K/4000K/6500K |
| Charging Time                 | 5-6 h                 |                         |                  |                     |                        |
| Lighting Time                 | Max. 60 h             |                         |                  |                     |                        |
| Cable Size                    | 5m                    |                         |                  |                     |                        |
| Digital PIR Sensor            | 120° / ≤6 Meters      |                         |                  |                     |                        |
| ELECTRICAL AND OPERATING DATA |                       | ENERGY LABEL & STANDARS |                  | CERTIFICATIONS      |                        |
| Nominal Wattage               | 15W (150W equivalent) | Type of Protection      | IP65             | CE Directive        | YES                    |
| Nominal Voltage               | AC220-240V            |                         |                  | ROHS                | YES                    |
| Operating Frequency           | 50/60Hz               |                         |                  | Warranty            | 2 YEARS                |
| Operating Temperature         | - 20° C to + 50° C    |                         |                  |                     |                        |
