PRODUCT DESCRIPTION

Useful bathroom fan that automatically draws the moist air to the outside. It is designed for surface mounting on a wall, and thanks to the use of ball bearings, it is also suitable for mounting in the ceiling. A very quiet device that will take care of the air quality in the bathroom, but will not disturb our relaxation zone. The fan has a compact design 120x120mm and a short exhaust pipe (100mm), which will fit even in shallow ventilation ducts. A special decorative panel can be selected for the fan, which is available in many colors. Thanks to this solution, the device looks good not only in the bathroom, but also in other rooms. The materials used

guarantee high durability of the device. The fan has got a timer switch.
