

Compressor H 185-6 8 bar 1.5 hp/1.1 kW 82.3 l/min 6 l

36546

Product details

EAN	8712418019094
Manufacturer	Airpress Polska Sp. z o.o.
Weight (kg)	16 kg
Length (mm)	500 mm (5 dm)
Width (mm)	240 mm (2.4 dm)
Height (mm)	470 mm (4.7 dm)
SKU	36546
Drive	Direct driven 1:1
Start	Direct
Cylinder number	1
Number of stages	1
Pump speed (rpm)	2850
Air receiver	Yes
Galvanized tank	No
Workload (labor/rest %)	30/70
Minimum working pressure (bar)	6 bar
Free air delivery (m ³ /h)	4.94 m ³ /h (1.372 dm ³ /s)
Noise level at 4 m (dB(A))	77
Noise level at 7 m (dB(A))	72
Sound volume reduction	No
Connection type	Universal
Main air connection (")	1/4
Number of reducable air connections	1
Oilfree	No
After cooler	No
Intercooler	No

Wheels	No
Filter with pressure reducer	No
Motor power (hp / kW)	1.5 HP / 1.1 kW
Capacity air receiver (L)	6
Maximum pressure (bar)	8
Intake capacity (l/min)	122 L/min (2.033 L/s)
Free air delivery (l/min)	82.3 L/min (1.372 L/s)
Noise level at 0 m dB(A)	97
Voltage (V)	230 V / 50 Hz / 1 Ph

Description

Do you want to improve your work in the garden and at home? Do you need access to compressed air while traveling or on the property? Are you looking for a mobile compressor that you can take with you everywhere? The H 185-6 home compressor is a universal device that will significantly improve the performance of everyday duties in your home and garden.

The Airpress compressor will provide you with optimal operating parameters for basic applications, such as inflating tires and mattresses and blowing water installations or leaves. As a result, you will perform each task quickly and effectively, saving your time and energy!

When you choose the H 185-6 compressor, you choose durability and efficiency!

The H 185-6 oil compressor from Airpress is distinguished by its extraordinary durability. Lubricating the piston block with oil provides better cooling and reduces wear of parts, which significantly extends the life of the device. Moreover, oil removes impurities from the compressed air, which increases the quality of the working medium. Thanks to this, you can use your compressor for a long time!

The H 185-6 compressor is equipped with a direct drive, which is an ideal solution for users with a lower demand for compressed air. Thanks to the direct drive, our compressor ensures faster start and smooth operation in short cycles.

Work efficiently and safely with our H 185-6 compressor!

Maximum working pressure of 8 bar allows you to perform a variety of tasks, from inflating tires and inflating mattresses, to powering basic pneumatic tools such as staplers and nailers.

Our H 185-6 compressor will meet your basic needs at home or in the garden, eliminating the need to perform many manual activities.

The H 185-6 model is equipped with a special compressor block cover, which not only protects key components against damage, but also increases operational safety. This is especially important for novice users who may not yet be familiar with the operation of this type of devices. A special cover protects against accidental contact with moving parts, ensuring peace and safety during work.

Use the H 185-6 portable compressor from Airpress!

The mobility of the H 185-6 compressor from Airpress is another great advantage of this device. Thanks to its compact size, ergonomic handle and low weight, the compressor is an ideal portable model that you can easily transport. Now you can use your compressor anywhere, both inside the house and in the garden and garage. You can pack it in the car and take it on a trip at any time!

Whether you need to inflate your tires in the garage or blow out your plumbing, our compressor is always at hand, ready to go!

Increase the efficiency of household chores with the H 185-6 model

The H 185-6 compressor offers a capacity of 82.3 l/min, which makes it ideal for many home applications. Thanks to this efficiency, you can quickly and efficiently blow the surfaces and devices in your home, saving time and energy.

The H 185-6 model is equipped with a quick air connector, which makes it much easier to connect and disconnect pneumatic accessories. This makes changing tools quick and easy, which significantly increases work efficiency. The quick connector also ensures a tight connection, eliminating air loss and increasing work efficiency.

Tank with a capacity of 6 liters is an optimal solution for basic household applications. This capacity provides enough air to perform most tasks, such as inflation and blowing, without the need to frequently turn on the engine. The small capacity also translates into lower weight and compact size, making the H 185-6 compressor easy to transport and carry.

Invest in comfort and efficiency - choose an Airpress compressor

Despite lower efficiency and basic technical parameters, the H 185-6 compressor is also perfect for professional applications with lower requirements. Due to its well-thought-out design and the use of high-quality components, this model is an ideal assistant for mobile service technicians, fitters and installers in all works requiring less compressed air.

By choosing the H 185-6 compressor from Airpress, you receive a device that will not only make it easier to perform your daily duties, but will also significantly increase your efficiency and save time. Thanks to its reliability and versatility, house and garden work will become easier and less time-consuming.

Don't delay - invest in a reliable H 185-6 compressor from Airpress!
